

Doris E. Eichburg  
Principal

Building Diagnostics  
*"The Durability Experts"*

---

## Career Summary

Ms. Eichburg joined Building Diagnostics, Inc. (formerly Engineering Diagnostics, Inc.) in June 2000 after graduating from the University of Texas at Austin with a Master's Degree in Construction Engineering and Project Management. After working as a Staff and Project Engineer, she was promoted to Project Manager in 2003 and Senior Project Manager in 2008. She was promoted to Principal in 2013. Ms. Eichburg specializes in the analysis and repair of existing facilities, with emphasis in the following areas:

**Condition Assessment** Assessment of structural and building envelope components, typically for property transfers.

**Construction Management** Preparation of contracts, specifications, and other necessary documents during design and monitoring of remedial construction projects.

**Exterior Wall Systems** Evaluation of structural, aesthetic, and weatherproofing performance of window and wall systems.

**Forensic Engineering** Failure investigations, brief preparation, and litigation support.

---

## Education and Registrations

### The University of Texas at Austin – School of Engineering

Master of Science in Engineering 2000

Area of Focus – Construction Engineering and Project Management

### Georg Simon Ohm University at Nuremberg, Germany

Bachelor (B.Eng.) in Civil Engineering 1997

Area of Focus – Construction Engineering and Transportation

Diplom-Ingenieur (FH), Germany 1997

---

## Professional Memberships

### **Austin Association of Facility and Maintenance Engineers (AAFAME)**

Vendor Director (2014-2016)

### **ASTM International (formerly the American Society for Testing and Materials)**

Committee E06 on Performance of Buildings

### **Building Enclosure Council (BEC)**

Austin Chapter – Board Member

### **The Association for Preservation Technology International (APT)**

APT Texas Chapter – Vice President

---

## Publications

“Bearing Pad Durability in Concrete Parking Garages” (with D.H. Nicastro and B.A. Feero)  
The Construction Specifier, January 2015

“Testing the Test: Water Absorption With RILEM Tubes” (with A.G. Saldanha)  
The Construction Specifier, August 2013
